Guatemalan Matters  
Report of Czech Planes

REF: GUAT 399

1. It is learned from Headquarters that the planes mentioned in the reference cable are probably Focke-Wulf 109's. These are piston driven German World War II aircraft, which are similar in performance characteristics to the Republic P-47.

2. Owing to the unlikelihood of this report, it is not to be given too much of your attention. If it is possible, you should endeavor to arrange for an aerial reconnaissance of the suspected finca and other places on which similar reports are received. This is the most expeditious manner of obtaining denial or confirmation.
